SUMMARY

UI/UX Designer with 2+ years of experience designing SaaS dashboards, web apps and mobile products across healthcare, education, fintech and marketplaces. I turn complex requirements and data structures into clear flows and usable interfaces in Figma, and work closely with developers through handoff. BSc in Computer Science, currently completing an MSc in Data Science in Berlin, which helps me design data-heavy products with a realistic view of implementation.

EXPERIENCE

UI/UX Designer, Cylo Pvt. Ltd. Lahore, Pakistan Jan 2026 – Sep 2026

- Designed web applications and dashboards for healthcare, education and analytics products, each with different user groups and workflows.
- Turned detailed product requirements and data structures into user flows, wireframes, prototypes and high-fidelity UI in Figma.
- Structured navigation and information hierarchy for data-dense dashboards.
- Redesigned existing interfaces for visual consistency and clearer interaction.
- Supported developers during implementation and resolved design questions.

UI/UX Designer, Symufolk Lahore, Pakistan Nov 2025 – Aug 2026

- Designed web and product projects in a structured design team, including Liborra, a Europe-focused freelance marketplace.
- Designed separate experiences for different user types: task discovery, worker profiles and communication.
- Iterated on designs based on internal feedback and changing requirements.

UI/UX Designer, Freelance Remote Jun 2024 – Jul 2025

- Designed mobile apps, dashboards and responsive web interfaces alongside university studies.
- Delivered flows, wireframes, prototypes and high-fidelity designs for an investment platform and a transportation service platform.

SELECTED PROJECTS

RTB Data Dashboard Multi-portal analytics SaaS for Florida K-12 schools · 2026–present

- Designed both the internal administration portal and the school-facing analytics portal.
- Defined the information architecture across dashboard, reporting, student performance, insights and school management.
- Designed upload, validation and data-quality workflows, plus dense data tables built for readability.
- Handled requirements around schools, classes, academic years, student groups and demographics.

MedSyncIQ Patient web platform, HealthTech

- Designed the patient dashboard and navigation for a platform that organises medical records from multiple hospitals.
- Designed the Family & Caregivers experience for controlled access to health records.
- Designed upload flows and progress states for medical record parsing and processing.
- Also designed the marketing website.

Liborra Web & mobile labour marketplace

- Structured flows for task discovery, worker selection, profiles and communication.
- Separated the experiences of labourers and task crafters so each workflow stays clear.
- Cut unnecessary steps from task discovery and worker selection.

Barakah Vault Mobile & web investment platform, FinTech

- Designed dashboards for the main platform and the administration interface.

- Kept the UI consistent across mobile, web and admin.

SKILLS

Design: UI/UX design, product design, user flows, information architecture, wireframing, prototyping, high-fidelity UI, design systems, responsive web, mobile app design, SaaS dashboards, data-heavy interfaces, design handoff

Tools: Figma, FigJam, Adobe XD, Framer

AI-assisted workflow: Claude, Figma AI, ChatGPT, Google Stitch, Gemini

Technical: HTML, CSS, basic JavaScript, GitHub

EDUCATION

MSc Data Science , Arden University, Berlin	2026 – present
BSc Computer Science , University of Central Punjab, Lahore	2021 – 2025
